

YOLO COUNTY DEMOCRAT.

SATURDAY, FEBRUARY 6, 1899.

L. P. FISHER, 20 and 21 New Merchant's Exchange, is our authorized agent in San Francisco. For Eastern Advertising, Mr. Fisher is represented by R. M. Pettengill & Co., of New York and Boston.

HUTCHINSON & MENNET, 41 Park Row, New York, sole agents for the DEMOCRAT in the Eastern States.

CONTEMPIBLE CONDUCT.—The Sacramento Record relates an instance of the outrageous conduct of a citizen of that city, which, if true, should subject the offender to a severe penalty. The individual referred to is engaged in business on one of the principal streets of that city, and is the head of a family. A sister of his wife, who for some cause has not been on speaking terms with the family, resides in another part of the city. Recently one of the children in the family was taken down with the small-pox. The unnatural husband and father, seizing the opportunity of wreaking a brutal vengeance on the young lady, earnestly entreated her to visit the dying child—at the same time concealing the nature of the disease. She yielded to his entreaties and during the visit was kept in ignorance of the cause of the patient's illness. On the young lady's departure she was requested to kiss the child. She did so, and was then informed that the child was sick with the small-pox and that the object of inviting her to visit the sick room was the gratification of revenge, in causing her to contract the loathsome disease. The Record promises to give the names of the guilty parties, in case the young lady is stricken down as a consequence of her visit. If the statement of the case is true, we think the public should know the names, no matter what may be the result of such an instance of premeditated brutality.

Since the above was in type we have noticed a card in the Sacramento papers denying the truth of the statement.

OUR MAN.—The public, so accustomed to sensations, must take matters patiently if during the present dull season nothing more spicy than President Grant's intentions must form the greater portion of the reading matter presented them. The fact is, the Republican party—or at least the Radicals—had to abandon and deny their principles during the campaign and grasp at the skirts of Gen. Grant to keep from sinking; so that now they find themselves dependent solely upon the will of that one man for all the principles and policies they will have to carry out during the coming four years. If, perchance, Grant surrenders to Greeley; Wendell Phillips and that sort of people, there yet may be a long lease of power and spoils for the greedy and enterprising Radicals who have thus far been no laggards in the race for spoils; but should the great cigar-smoker take a notion, just for ease and comfort, to fall back into the Democratic habits and opinions of his early life, what a precious row there will be in the loyal camp!

DISGUSTED.—The San Francisco Chronicle appears to have become disgusted with the action of Congress. The following appears in the columns of that paper of recent date: Congress cannot sensibly discuss and act upon practical measures for relieving the industry of the country from its burdens, but it can take steps for adding worthless San Domingo to the Union, thereby adding to the negro population and insuring more negro representation in Congress. It seems as if some of the leading members of Congress cannot rest satisfied until they have so arranged matters that the negroes shall have a majority of the representation in that body. To this end, they wish to immediately annex Hayti and San Domingo, and we should not be surprised to see a proposition for annexing Liberia seriously entertained by the negroes in Congress. The substance of the nation is being wasted upon damaging schemes of diseased visionaries, and the industry of the nation is being taxed to death in order to carry out the project of humanitarian negrophiles.

ELECTION FRAUDS.—The Committee appointed to investigate the alleged election frauds in New York, are, in spite of themselves and their Radical predilections, stumbling upon more frauds perpetrated by their own party than by Democrats. Thus far, nothing has been found among the Democratic frauds to equal those of the Radicals. As far as ascertained, the only great frauds unearthed have been traced to Marshall Murray, John H. White and other prominent Radical leaders; and, unfortunately for Radicals, the Committee in their thoughtless zeal and overweening confidence, gave too much publicity to their investigations. They commenced skinning Democracy, but before the slaying was accomplished found they had been removing the hide from Radicalism.

ENTERPRISING FIRM.—C. C. Hastings & Co., successors to Houston, Hastings & Co., of San Francisco and New York, one of the most popular firms on the Pacific Coast, are making enormous monthly sales of superior clothing and are worthy of the extensive patronage they are constantly receiving from country merchants.

REVISED.—Downlow has written his valedictory and retired from the management of the Knoxville Whig. In taking leave of his readers he says he has no favors to ask from his enemies, but wishes that success may attend his friends.

LOSS BY FIRE.—The total loss by fire in San Francisco during the six months ending December 31st, was \$297,358 34. Three fires were lost by fire during the same period.

RECAPTURED.—George Williams, who escaped from the State prison in 1867, was recently arrested by Sheriff Porter of Sonoma county, and returned to his keepers.

Land Talk.

From the various sections of California, from Siskiyou to San Diego, there has been during the past year a steady increase in the price of land, whether in the shape of town lots or the broad acres of the farmers. The few exceptions to this proposition are visible in those illegitimate little railroad towns like Folsom, Reno, and others, that have originated in the speculation invariably preceding the pathway of the iron horse. But the question is, what has caused this steady and still increasing rise in the prices of land? Is it the legitimate fruit of good government and a healthy public condition; or is it some one of those mysterious results which produce high prices before the public can fathom the cause, terminating in a revolution and depression?

In Yolo, where the augmented value of land is plainly visible in every part of the county, it is safe to say that this result is strictly the legitimate effect of the settlement of land titles formerly disturbed and clouded, and also that the farmers have taken themselves to a habit of making use of their land and tilling it to a greater extent and in a more complete manner than of old. Land here, now, returns solid profits to the tiller of the soil, so that when we see him in a country store purchasing supplies with plenty of cash and as much credit as he chooses to ask for, it is easy to see that land yields reward and at the same time gives to the possessor habits of self-reliance and forethought seldom arising from the other more speculative and sensational occupations. In other words, the farmer, in a new country like ours, may at first hesitate and falter in his business; but let him once or twice return practically to the habits of his class—such as those habits were in the old home he came from—and we have a solid, strong, working and thinking man, who abandons the gad-about policy which so long has rendered our coast the scene of the most reckless rushing hither and thither ever witnessed among civilized people. Take the farmers of this county, for example, and it is wonderful to note how many among them will smile complacently and with indifference while listening to the eager discourse of some old Californian who has fallen a victim to the sensation of the season—White Pine! These men, who perhaps hunted for Gold Lake in '50, and afterwards for Kern river, and still later for Fraser river, and the other later sensations, are at length converts to the idea that wheat, barley and other kindred products of the earth are safer and more comforting than the mineral yields. They know now that the assurance of a legitimate profit on their farms is the guarantee of an independence seldom observed among the other classes of Californians, and that if their lives are possibly a little "slow," they are certainly very sure, comfortable and independent. Recurring to our first question, how are we to account for the present high and still increasing price of land? There are people who believe it to arise from the steady influx of population; but these are met with statistics and told that no great increase of population is exhibited or asserted in those official enumerations made annually by our assessing and collecting officers. Others, with vague words, talk of the railroads, present and proposed, and unreasonably attribute everything to them; while a few are found who declare that the high price of land arises from its scarcity, and assert that the capitalists are buying up every acre in the country that has not been sold on the part of the actual settler before the public lands upon which they have filed declarations, which lands have been surveyed and perhaps offered once at public sale. They do not seem to realize the fact that in all such cases their lands may be bought from under them by the first land-shark or capitalist that takes a fancy to them. Let all such look to it in good time; for "it takes money to buy land."

TIMELY CAUTION TO REAL ESTATE BUYERS.—Given by Carter's "Real Estate Circular." It generally says that, where a man and wife are divorced, the woman is entitled to receive full interest in all of her late husband's real estate, provided he was not divorced from her for adultery on her part. In such case she receives nothing. If the husband committed adultery, all of his real estate becomes the property of his wife. Those who are about purchasing real estate should see that it is kept free of incumbrances arising from the above cause. We have heard of several cases here where a divorced wife, who was not aware that she had any interest in her husband's property, was approached by persons who were posted upon the law. They gave a plausible excuse for wanting a deed from her, and obtained it for a trifle, and this secured half the husband's real estate. [Sonoma Democrat.]

INFORMATION WANTED.—Susan Lewis—widow name, Susan Rowe—desiring to make her whereabouts known to her sister, Catherine Jones, supposed to be now living in Marysville, Cal., would inform her that she is at Lowell, Lewis county, N. Y., in destitute circumstances, and extremely anxious to hear from her. California papers by copying this notice will confer a lasting favor upon a sorrowing woman.

Too BAD.—The San Franciscans complain that their young couple marry off too fast. Thirteen lady teachers from the Lincoln school have married within the last four years. [Exchange.]

In Sacramento they have been doing likewise. They do not wish "to waste their sweetness on a desert air." [Record.]

GORGEOUS ARRAY.—In Paris, recently, a bride appeared at her wedding, arrayed in a magnificent dress which cost \$22,000.

Letter from the Capital.

WASHINGTON, Jan. 15, 1899. Everybody that visits this city, who knows how to write, considers it his duty to write his experience. The experience of many, if truthfully written, would serve as a warning to all who value a reputation for honesty, integrity and morality to avoid its baneful influences and demoralizing atmosphere as they would the pestilential air of a pest-house. Wickedness in high places we expect to meet with; sin and crime in low places is known to exist everywhere, but it is here sinfulness and wickedness from top to bottom. Morality is at as great a discount as the bonds of the late Confederacy—there is no market for it—no demand for it. Society here is a terrible conglomeration of all evils. Harlots jostle you in the halls of the Capitol and harlotry holds high carnival in gilded saloons and in less pretentious "private boarding houses" and places of assignation. Men in Washington, to be anything, must be fast, and this velocity must be sustained by any means, as every one aspires to excel all others. Washington has been designated as a "slow" town, but in my opinion, it is going to the devil at a very rapid rate indeed.

CONGRESS has done little and will not do much during the present session. All important measures will go over to the next Congress. Retrenchment is the order of the day, and it may mean something, but there are those who believe that all the cry about economy is raised to distract attention from schemes of public plunder to be consummated hereafter. Who can tell? The ways and intentions of politicians and Congressmen are hard to fathom or find out.

THE INAUGURATION promises to be a grand affair, to wind up with a grand ball in the rotunda of the Capitol. Everybody likes Grant and all unite to do him honor. Of course all are entirely disinterested—nobody wants anything.

The Tenure of Office Bill has been re-called by a vote of the House and the Senate will be likely to concur in its action, giving Gen. Grant a clear field, and it is possible that an unconditional surrender of many of his offices will be demanded at an early day. There are plenty of new men who worked hard for the General's election and are otherwise well deserving; then let the old officers stand aside and give fresh, new, active men a chance.

CALIFORNIA has no candidates, of course, though a few might be forced to accept positions under the new Administration. In fact, I think I know several who might be induced to sacrifice their private interest and take office from motives of patriotism alone.

There are quite a number of Californians in town and more expected—all intent on private business, of course. A. A.

"NATURALIZATION FRAUDS."—Since the election on the 3d of November last, Radical papers all over the State have kept up a hue and cry against Democrats for alleged naturalization frauds. The Grand Jury of the United States District Court has been eagerly investigating these charges of obtaining fraudulent naturalization papers, finding indictments by the hundred. It now turns out, says the Examiner, that the evidence to malign a large number of citizens by falsely charging them with high crimes appears to have mainly proceeded from a dereliction of the Clerk of the Court, whose duty it is to keep a record of naturalization. So far as the District Attorney has investigated the matter, the indicted parties have genuine papers, and it is believed that not one of them will be found fraudulent. In regard to this subject the San Francisco Herald of the 1st inst. has the following:

On motion of United States District Attorney Lake, in the United States District Court yesterday, orders of *nolle prosequi* were entered in several of the cases of indictment for forging certificates of naturalization, on the ground that the defendants had genuine certificates from the United States Circuit Court, though no entries had been made in the minutes by the Clerk. His Honor Judge Hoffman said that such obvious negligence called for a marked reprimand, and that no excuse could be admitted for omissions that occasioned such grave accusations against innocent citizens, and produced such erroneous impressions upon the Grand Jury and the public.

Judge Lake remarked that it was very much to the surprise of persons having genuine papers to be thus indicted and made to suffer under the imputation of crime without any fault on their part.

Judge Hoffman replied that they might well feel indignant, and that such carelessness on the part of the Clerk was well calculated to bring reproach on the Grand Jury and the Court.

NOW, AND THEN.—In the year 1849, and for several years thereafter, California depended entirely upon importations of breadstuffs for home consumption, and as a matter of course such necessities commanded an exorbitant price. The case is quite different now. The skill and industry of our farmers have developed the rich resources of the finest tracts of grain-producing land in the world. The markets are supplied and an enormous surplus is yearly exported. Twelve million bushels of wheat were sent away last year.

SACRAMENTO WRITING.—A lady correspondent of the Union, writing from the snowy regions of the Sierra Nevada, grows eloquent in praise of the grace and beauty of Sacramento girls. Being possessed of a susceptible heart, she congratulates herself that she is not a man.

MAIL SERVICE.—A warrant was drawn on the Secretary of the Treasury, Jan. 12th, for \$250,000 in favor of Wells, Fargo & Co., for payment of the December arrears for carrying the Overland mail.

A ROLAND FOR AN OLIVER.—During the trial of a case in the County Court yesterday, one of the attorneys attempted to defeat a female witness by browbeating her.

After she had given her testimony in a lady-like manner, he opened his batteries and began cross-questioning her. "Now I want you to answer me truly; haven't you been divorced from your husband?" "Yes, I have," replied the witness. "Ah, ha! I thought so," exclaimed the lawyer, in a tone of evident triumph. "And," continued the lady, "if I was married to such a barbaque upon man as you are I would get another divorce if there was any justice in the Courts, and I believe there is." The attorney subsided. NEW ADVERTISEMENTS.

The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—indigestion, dyspepsia, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels, if not kept in order, produce dysentery and Diarrhoea. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys, to regulate their respective and regenerative operation.

Erysipelas and Salt Rheum are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers. Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin. Arising from a bad state of the blood, or chronic diseases, are eradicated by a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and toilet preparations in its power to dispel rashes and other disfigurements of the face.

Female Complaints. Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display to decision an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles or a Fistula. Every form and feature of these prevalent and stubborn diseases is eradicated locally and entirely by the use of this emollient, warm, foaming preparation, which precedes its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, festula, gout, lumbago, neuralgic eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swollen glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetters, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway's" and "London" are stamped in a water-mark on every leaf of the book of directions which unfolds each box or pot. No others are genuine. A handbill is given for information leading to the detection of counterfeiters of the medicines and vendors of the deceptive articles, knowing them to be such, and at the same time, to the benefit of the public. A great saving by taking the right size. Full instructions with every box or pot.

Summons. IN the District Court of the Sixth Judicial District, of the State of California, in and for the county of Yolo. CHARLES KOLEY, plaintiff, vs. HENRY EVERLAND, defendant.

Action brought in the District Court of the Sixth Judicial District of the State of California, in and for the county of Yolo, and the complaint filed in said county of Yolo in the office of the Clerk of said District Court.

The People of the State of California send greeting to Henry Everland, defendant: You are hereby required to appear in an action brought against you by the above named plaintiff in the District Court of the Sixth Judicial District of the State of California, in and for the county of Yolo, and to answer the complaint filed therein, within ten days, (exclusive of the day of service) after the service on you of this summons, if served within this county; or, if served out of this county, but in this District, within twenty days; otherwise within forty days—or judgment by default will be taken against you, according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of said Court, dissolving the bonds of matrimony heretofore existing between said parties. And you are hereby notified that if you fail to appear and answer the said complaint as above required the said plaintiff will apply to the Court for the relief therein demanded.

Given under my hand and seal of the District Court of the Sixth Judicial District of the State of California, in and for the county of Yolo, this 11th day of December, in the year of our Lord one thousand eight hundred and ninety-eight.

Jackson, \$18; W. F. Ried, \$18 87. Contingent Fund—H. S. Crocker & Co., \$14; Eaton, Green & Co., \$3 75.

IMPORTANT LAW SUIT.—On the 1st instant, Fabian Glicker commenced suit in our District Court against Charles E. Paine and F. G. Burke, to settle the title to the south-east quarter of section thirty-six, township eleven north, range one east, situated in this county. This plaintiff alleges that he has for several years past been the sole occupant of the land and is now living on it; but that in November last the Defendant, Paine, instigated by the other defendant, Burke, went into the State Land Office and "declared" on it, swearing to the usual statements, one of which is that "there is no occupation of said land adverse to that I now hold." If the plaintiff's statement is true, there has been some strong evidence. This case is highly important, because it is one of the few instances in which a plaintiff contest has been made against the very dubious swappings of our land speculation. Usually the seller cannot afford to contest such matters against the land sharp, who generally gains his point. This suit, if successful, will cause others similar in interest, and will also occasion the appearance of some of the strong-swinging fraternity before our criminal Courts.

LYCEUM.—An adjourned meeting of the Yolo Literary Society was held on Wednesday evening at Temple Hall. Quite a number were in attendance, and visitors as well as members participated in an interesting debate of the question proposed at a previous meeting. The question agreed upon for discussion on Wednesday evening next is: "Resolved, That suffrage should be restricted by educational qualifications." H. G. Burnett and Wm. Minis were appointed leading dissenters. A resolution was offered and passed inviting the ladies to attend the meetings of the society. C. G. Kenyon and others were appointed on essay, declamation, etc. The meeting was lively and interesting.

GOOD APPOINTMENT.—The Elina Fire Insurance Company of Hartford, (Conn.), has appointed J. McCormick Agent for Yolo county. Mr. McCormick has represented the old Elina for El Dorado county for several years and thoroughly understands fire insurance underwriting. The Elina, not to be excelled in the prompt adjustment and payment of losses, could not have made a better selection of agent for this locality. Office at Fleishman & Kaufman's.

FATAL ACCIDENT.—On Wednesday last a little son of J. W. Messick, who lives about five miles south-east from Buckeye, met with an accident which resulted in his death. Messick had been engaged in killing hogs, and a kettle in which land was being rendered was taken off the fire to cool, when the little fellow—between two and three years old—fell into the vessel of scalding grease. He was thrown into violent spasms and suffered great agony until relieved by death the following afternoon.

MCD.—Real estate in this vicinity is exceedingly moist, rendering travel on the county roads rather disagreeable. The bonafide rains causing this condition of affairs have proved a great blessing, and with the fine prospect ahead for rich harvests, a favored people can afford to endure cheerfully the inconvenience of muddy roads.

ON A VISIT.—S. W. Raveley, an old resident of Yolo county, formerly editor and proprietor of the Knight's Landing News and latterly forwarding and commission merchant at the Landing, left with his family a few days since to visit his friends in Liverpool, England. The good wishes of many friends accompany him on his journey.

MILITARY CLOTHING.—At the new store of Berliner & Co., adjoining Gover's Restaurant, a large quantity of military clothing will be offered for sale at low rates for one week. Those who wish to secure bargains should call immediately.

AGRICULTURAL SOCIETY.—The organization of a County Agricultural Society in this county is a matter demanding the attention of all interested in our future growth and prosperity. Measures to secure such an organization should be adopted without delay.

IMPROVED.—During the week workmen have been engaged in making alterations in the store of Henry Aronson, on Main street. The establishment presents a fashionable appearance and the proprietor is worthy of patronage.

NEW RAILROAD COMPANY.—The bill introduced in the United States Senate a short time since by Mr. Abbott, of North Carolina, says the Alta's Washington correspondent, to aid in the construction of a railroad and telegraph from the Rio Grande to the Pacific Ocean, incorporates the National Pacific Railroad Company to construct a railroad and telegraph line from a point on the Rio Grande, within twenty miles of Albuquerque, New Mexico, to San Diego, California. The capital stock is fixed at thirty millions. In aid of the enterprise the bill proposes to grant twenty alternate sections of public land per mile on each side of the road, and Government six per cent. thirty-year currency bonds to the amount of thirty-two thousand dollars per mile, to be secured by a second mortgage on the property of the company.

SINGULAR CASE OF TRANCE.—A singular case of trance is reported in Burlington, (Wis.) A young girl, fourteen years old, told her parents she was going to sleep, but they must not bury her for fourteen days, as she should not be dead. She has been in this state of trance in her coffin, with no trace of life discernable, but with no signs of decay, save the sinking away of her cheeks. The case attracts much attention.

A SHORMAKER was the other day fitting a customer with a pair of boots, when the buyer observed that he had but one objection to them, which was that the soles were a little too thick. "If that is all," replied the maker, "put on the boots, and the objection will gradually wear away."

SACRAMENTO PRISONERS.—The whole number of prisoners confined in the Sacramento county jail, on various charges, during the month of January, was fifty-eight.

LABOR EXCHANGE.—Engagements are being made at the Labor Exchange, San Francisco, for laborers, at an average of twenty per day.

A GREGIAN BENDER ON THE RAMPAGE.—A few days since one of our fashionable belles sauntered into one of our city drug stores, and inquired of the young man in attendance if they had the Magnolia Water. Upon being answered in the affirmative, she said she would take a bottle. Whereupon the young man proceeded to do up the package, but was interrupted by the young lady remarking, that if what he was doing up was for her, he had made a mistake, that it was not Plantation Bitters, but Magnolia Water which she inquired for. He excused the mistake by telling her that she appeared to have the "Grecian Bend" or "red" deep very bad, knowing that Plantation Bitters were highly recommended, supposed that was what she wanted. Whereupon she grew wrathful and retorted by saying that she was a sickly, bilious looking girl, and by all means to take it herself, it would do him a power of good. She procured the Magnolia Water, and left the store highly indignant.

ELECTRO SILICON.—This curious and valuable substance is confidently claimed to be the best article ever discovered for cleaning and polishing Gold, Silver and Plated Ware, and all smooth metallic surfaces, of whatever description, including kitchen utensils of tin, copper, brass, steel, etc.

TO HEADS OF FAMILIES.—Are your little ones subject to croup? If so, don't fail to use NEWELL'S PULMONARY SYRUP. A few doses given in time may save the life of a darling child. Do not fail to have it on hand, if you would be safe and free from anxiety.

"IN TIME OF PEACE PREPARE FOR WAR."—So get a bottle of DR. E. COOPER'S UNIVERSAL MAGNETIC BALM, an unequalled preparation for Dysentery, Diarrhea and Cramp. The instantaneous relief for Burns, Bruises and Sprains.

DIED.—Near Woodland, February 4th, WILLIAM HENRY, son of Adam and Sarah Wattenburg, aged 11 years and 11 months.

STOP THAT COUGHING.

Some of you can't, and we pity you. You have tried every remedy but the ONE destined, by its intrinsic merit, to supersede all similar preparations. It is not surprising you should be reluctant to try something else after the many experiments you have made of trusty compounds foisted on the public as a certain cure; but

Newell's Pulmonary Syrup
is really the VERY BEST remedy ever compounded for the cure of coughs, colds, sore throat, Asthma, Whooping-cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

Newell's Pulmonary Syrup,
and with one record give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

Newell's Pulmonary Syrup
has cured thousands, and it will cure YOU if you try it.
This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

ESSENCE OF
JAMAICA GINGER!
This valuable preparation, containing in a highly concentrated form all the properties of Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.
As a tonic, it will be found invaluable to all persons recovering from debility, whether produced by fever, or otherwise; for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.
It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.
It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea-sickness, or other causes.
It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

Life Insurance Company,
OF BOSTON.
By the Acts of Massachusetts, incorporated into the General Statutes of 1860 and 1864, a Policy of Life Insurance for the benefit of a Married Woman, or any person or persons specified, goes to them independently of the debts and liabilities of the party who effects the policy.
An Act to Regulate the Forfeiture of Policies of Life Insurance.
Be It Enacted, etc., as follows:
SECTION 1.—No Policy of Insurance on Life, hereafter issued by any Company chartered by the authority of this Commonwealth, shall be forfeited or become void by the non-payment of premium thereon, any further than regards the right of the party insured therein to have it continued in force beyond a certain period, to be determined as follows, to-wit: The net value of the policy, when the premium becomes due and is not paid, shall be ascertained, according to the "combined experience" or "actuarial" rate of mortality with interest at four per cent. per annum. After deducting from such net value any indebtedness to the company or notes held by the company against the insured, which notes if given for premium shall then be cancelled, four-fifths of what remains shall be considered as a net single premium of temporary insurance, and the term for which it will insure shall be determined according to the age of the party at the time of the lapse of the premium, and the assumptions of mortality and interest aforesaid.
SECTION 2.—If the death of the party occur within the term of temporary insurance covered by the value of the policy, as determined in the previous section, and if no condition of the insurance, other than the payment of premium, shall have been violated by the insured, the company shall be bound to pay the amount of the policy the same as if there had been no lapse of premium, anything in the policy to the contrary notwithstanding; provided, however, that notice of the claim and proof of the death shall be submitted to the company within ninety days after the death; and provided, also, that the company shall have the right to deduct from the amount insured in the policy the amount at six per cent. per annum of the premiums that had been forborne at the time of the death.

YOLO COUNTY DEMOCRAT.

Giving the Devil his Due.

Said tipsy John to his railing wife,
As staggering home at night,
O'ercome by the might of beer and gin,
He came in a woful plight:
"Don't be so hard in your charges, love,
I'm a little to blame, 'tis true;
But give the devil his due, my love,
Oh, give the devil his due."

His helpmate gazed on his wavering form,
Of as vainly he essayed
To retain his seat in a treacherous chair,
And readily answer made,
"To give the devil his due, my love,
Is perfectly right, 'tis true;
But what would become of you, my love,
Oh, what would become of you?"

THE GREEK BEND.—The best illustration of a Greek bend is a sea-sick lady paying tribute to Neptune.

A man about town wishes to know if an Irish spree is not like a Greek bend. The Greek bend, in which so many fashionable women indulge, and the symptoms of which are similar to cramp in the diaphragm, is not due to a weak stomach, but to a weak head.

When lovely women stoop to frolic,
And ruse the ruse, alas too late,
What balm shall soothe her melancholic?
What art shall set her back up straight?
The only thing for her disaster—
Is to apply a mustard plaster:
If she won't do it, let her bend.

We saw a case of Greek bend, the genuine article, on Clinton street, the other day. The victim was young, she was dressed in black, and might have been good looking. She traveled evidently on her personal curve, and on that alone all attention was bestowed. Her panner was fatless, and she had the wriggle to a dot. We

Looked on her mournfully
Gazing not scornfully
But all the time wondered,
First, how she contrived to twist and keep herself in that shape. Second, how long she had practiced it, as she seemed to have got the style, gait, and all down to a fine point. Third, how it felt.

She evidently thought she would make a sensation, and she did. Everybody passing along the street looked at her. People turned to gaze at her, small boys ran along side of her with as much interest as they would follow a circus wagon drawn by two piebald ponies. Men driving along the street checked up their horses to study her at leisure, as a spectacle too gorgeous to be taken in at a glance. The prevailing sentiment was of wonder mingled with pity. Suppose she grew into that shape, a sort of inverted note of interrogation, to walk in that crooked way the rest of her days? The bare supposition makes us feel bad.

As we have said, she was young, and perhaps knew not what she did. But had she no friends?

Had she a father?
Had she a mother?
Had she a sister?
Had she a brother?
Or was there a nearer one
Still, and a dearer one?

to tell her that she was making a donkey of herself, and that it would be bad for her health. A fearful responsibility may rest on somebody who might have saved her, and ought to have taken this misguided victim of fashion in hand before she went on a Greek bend in public. If it is not yet too late to straighten her up again, we recommend them to do it.

"Tell me," quoth John, "why this Principle now nearly burnt to the twisted end. Is like the panther which we see
A lady wear with the Greek bend?"
Says Jim, "The answer must plainly be,
It is manufactured to back her, my friend."

CARQUINEZ.—Gen. Vallejo, in the Chronicle, gives the following interpretation of the word "Carquinez":

Carquinez means serpent. The Indian Chief of the Straits, related to me on one occasion, that from a beautiful hill which exists in Vallejo (now Capital Hill) there would come forth a huge serpent with eyes of fire; it would straighten itself upon its tail almost perpendicularly, looking towards the Straits, then cautiously upon the island of the Mare, (Tapeyar, Indian name for the same), and lastly in the direction of Yulupa, (the sunset hills towards Sonoma), watching or looking for the "Blazing Turkey" which was wont to arise from the air of the mountains; and that when these two monsters ever met it was a sign or omen of some terrible disaster or calamity, wars, pestilence, etc.

A YOUNG Cincinnati dentist was introduced to a fashionable beauty the other evening, and gracefully opened the conversation by saying: "Miss , I hope I may consider that we are not entirely unacquainted, I had the pleasure of pulling a tooth for your father only a short time ago."

"MARY MAGDALENE had seven devils cast out of her. I never heard of a man having seven devils cast out of him." A wicked contemporary bachelorette in the course of a discussion on the woman question. "No, they are not cast out yet, I believe," was the quiet response of his fair antagonist.

A CERTAIN insurance agent says a married man should insure his life for many reasons. But the most important of all, is that it would prove a great help to his wife's second husband, and might be the means of starting him in business.

A QUAKERESS said recently to a friend, in reference to the Quaker formula of marriage: "It is true I had not become to obey when I was married; but I might as well have done so, for I had to do it."

A YOUNG lady teacher of music in a West-ern New York academy, writing to a publisher, thus apologized for her bad spelling: "You must excuse this letter, as I play a neat, but spel bi ear."

An attorney about to furnish a bill of costs, was requested by his client, a baker "to make it as light as he could." "Ah!" replied the attorney, "that's what you may say to your foreman, but it's not the way I make my bread."

A CHURCH preacher has been pointing out "the way to hell." A wicked contemporary adds: "Persons desiring a complete guide to Chicago should purchase the sermon."

A YOUNG lady went to a photograph artist the other day and wanted him to take her with an expression as if composing a poem.

It is not the sharpest people who succeed best. Many an instrument is so keen that it cuts those who handle it the worst of all.

Why is a wag dog larger at night than he is in the morning? Because he's let out at night and taken in in the morning.

When Autumn is married to Winter, the wedding-cake is always frosted.

THE BEST SEWING MACHINE EVER MADE!

And indeed is the ONLY New Sewing Machine, on both sides, which will not ravel. Every Machine is warranted to sew from

Thinnest Lace, to Double Harness Leather! and of course can never get out of order by "hard sewing." All repairs free of charge. Prices same as others.

EASE OF MOTION AND MANAGEMENT.

It has few pieces, and all of steel. It makes the complete "Lock Stitch," the same on both sides, which will not ravel. Every Machine is warranted to sew from

Thinnest Lace, to Double Harness Leather! and of course can never get out of order by "hard sewing." All repairs free of charge. Prices same as others.

PLEASE NOTICE.

The claims of the Florence Company for the First Premium at the great Paris Exposition of 1878, though seeming true in letter, is really false in spirit and intent, and calculated greatly to deceive the public. Although it did receive the Silver Medal—that being the highest award given—it was not awarded the FIRST PRIZE! This was awarded the **WEED** only, as being "first in the order of merit." The second place was given to an European Machine, and only the third to the Florence! (See official report.) See also, as to the NEW **WEED** Sewing Machine, the returns of the State Fairs of Pennsylvania, Illinois, New Hampshire and New York, for 1877, at each of which the **NEW WEED** "P. F." Sewing Machine was pronounced the BEST, and received the highest premium given. And so also to other Fairs, and indeed wherever the Company shall choose to exhibit the "strong points" of this really magnificent Machine.
